Consequent to the continuing nationwide lock down till May 31, 2020, the Company's operations were scaled down in compliance with applicable regulatory orders. Subsequently, during the year after the lock down restrictions were lifted the Company's operations have been scaled up in a phased manner taking into account directives from various Government authorities. The impact on future operations would, to a large extent, depend on how the pandemic further develops and it's resultant impact on the operations of the Company. The Company continues to monitor the situation and take appropriate action, as considered necessary in due compliance with the applicable regulations.

The management has made an assessment of the impact of COVID-19 on the Company's operations, financial performance and position as at and for the period ended September 30, 2021 and has concluded that there is no impact which is required to be recognised in the financial statements. Accordingly, no adjustments have been made to the financial statements.
